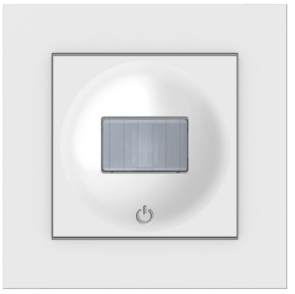
Data Sheet 4540060



Product: SmartMove Relay 10A Plus PW
El-number: 4540060
Mat.no: EKO06988
EAN: 27020160698807
Packing: 1
Color:

Product description:

The SmartMove Relay 10A detects moving heat sources (e.g. persons) and can switch on ohmic, inductive or capacitive loads for a settable time period. Perfectly suited for storage areas, hallways, entries, WC and other rooms where you would want the light to be turned on and off automatically based on occupancy state.
Control options
Home control: To control the motion sensor through the ELKO Smart app you will need the ELKO SmartHUB.
Room control: To control the motion sensor with other ELKO Smart devices, it can be paired with other ELKO Smart devices within the same Zigbee network.
Direct operation: The motion sensor can always be controlled directly on-site. You can also connect any
number of mechanical push-buttons.

Functions:
Detection range
Automatic mode, manual operation
Via app:
Detection brightness
Detection sensitivity
Set time for automatically turning off light when there is no movement
Setting a timer or a time schedule

Technical specifications:

Nominal voltage: AC 230 V ~, 50 Hz
Standby: max. 0.4 W
Connecting terminals: Screw terminals for max. 2 x 2.5 mm2, 0.5 Nm
Extension unit: Single push-button, unlimited number, max. 50 m
Fuse protection: 16 A circuit breaker
Nominal current: 10 A, cos? = 0.6
Frequency band: 2.4 GHz
Transmission capacity: 2.5 mW
Certification: Zigbee 3.0
